REQUEST TO THE LAKE RESIDENTS

Dear Lake Residents,

This letter is for all residents that live on Shadow Lake. As you know the Shadow Lake Dam has a system in place to catch debris that gathers at the dam entrance. We ask that you are careful to not dump into the lake any, leaves, grass cuttings, limbs, branches, and any objects that are not meant for the waterway. That type of debris flows to the dam and clogs the lake flow exit.

Recently, there was a blue barrel that may have been a boat tie that was blocking the waterway, that needed to be pulled out of the spillway.

Please visit the "RIVER" page on our website to learn more about the Shadow Lake Dam. The new FLOOD page was created to collect photos of damages caused by the flood of 23. The Shadow Lake Emergency Action Plan 2024 was updated and recently adopted by the Selectboard and will be on the website.

We appreciate your attention to these concerns and are open to suggestions.

Sincerely,

The Town of Glover
